

Symposium on

Egyptian Pelvis
and Hip Society

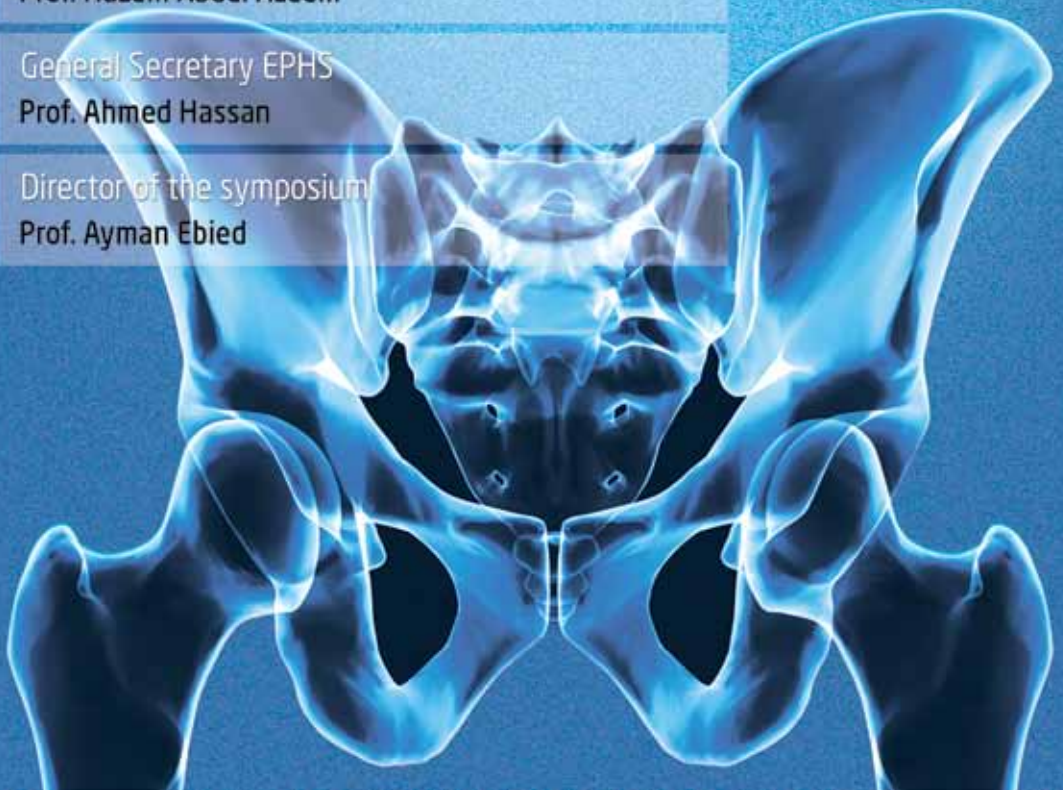

Hip periprosthetic infection: The state of the art in prevention, diagnosis and management

30th March 2017
Tulip El Galaa Hotel, Cairo - Egypt

President of the EPHS
Prof. Hazem Abdel Azeem

General Secretary EPHS
Prof. Ahmed Hassan

Director of the symposium
Prof. Ayman Ebied

Welcome Message

Dear colleagues,

It gives me great pleasure to welcome you at one of our activities: the symposium on periprosthetic infection.

Infection is one of the most devastating complications that a patient or surgeon can face. We are all aware with the burden on the society, both the health system and the national economy, to manage cases with established infection around a prosthesis. Therefore, the aims of this symposium are multiple folds: first to discuss the current evidence and protocols for prevention of infection as well as diagnosis of already infected cases. Second, to provide an update on the techniques of reconstruction and management of infected THA. Finally, to alarm the health professionals with the magnitude of the problem in Egypt, that may initiate specific policies to combat the rise on rates of infection.

I would like to thank the organizers and speakers for their valuable contributions. My thanks and gratitude would also go to the sponsors of the day for their endless support. However, the success of this society can only happen by your attendance and interaction.

Wishing you a fruitful event

Prof. Hazem Abdel Azeem

A handwritten signature in blue ink that reads "Hazem Abdel Azeem". The signature is fluid and cursive.

Scientific Committee

Arranged in alphabetic order

Ahmed Abdel Aal
 Ahmed Abdel Azeem
 Ahmed Ebied
 Akram Hammad
 Ayman Soliman
 Ibrahim Gado
 Hatem Bakr
 Fouad Zamel
 Khaled Fawzy
 Maher Halawa
 Mahmoud Hafez
 Mahmoud Mabrouk
 Mohamed Abdelmoneim
 Mostafa Abdel Khalek
 Raouf El Abbasy
 Sameh Marei
 Tarek Abdel Shafy
 Tarek Taweel
 Timour El Hussein
 Wael Samir
 Waleed Ebeid

30th | March 2017

Registration

TIME

08:30-09:00

Session 1 (Basic Science)

09:00 - 10:30

Chairmen:

Hazem Abdel Azeem
Ahmed Hassan

09:00 - 09:10	Periprosthetic infection: the magnitude of the problem Hazem Abdel Azeem
09:10 - 09:25	Orthopedic theaters: criteria for clean theatre and theatre personnel? Ahmed Abdel Aal
09:25-09:35	The race for the surface and biofilm formation Eissa Ragheb
09:35-09:45	Diagnosis of infection: what are new tests and recommendations? Hatem Bakr
09:45-09:55	Identifying the infecting organism: updates on specimens collection and cultures Ibrahim Gado

09:55-10:05 | Common organisms that cause infection in orthopedics and antibiotic protocols
Khaled Fawzy

10:05-10:20 | How to minimize the risk of infection in prosthetic implant surgery? (pre, intra and post operative protocols)
Wael Samir

10:20-10:30 | Discussion

30th | March 2017

Session 2 (Practice & Techniques)

TIME

10:30-11:15

Chairmen:

Mahmoud Mabrouk
Raouf El Abasy

10:30-10:45	Video demonstration for patient preparation and set up for arthroplasty surgery Ahmed Hassan
10:45-11:00	Debridement of infected implants: how to perform? Timour El Hussein
11:00-11:15	Discussion
11:15-11:45	Coffee Break 

30th | March 2017

Session 3 (Decision Making and Practice)

TIME

11:45-12:40

Chairmen:

Tarek Abdel Shafy
Fouad Zamel

11:45-11:55	How the patient characteristics influence results classifications for patients' types and risk factors Ahmed Hazem
11:55-12:05	Debridement and retention of the implant, when and what is the evidence? Foad Zamel
12:05-12:15	Spacers: the art of fighting organisms and filling the space Ayman Soliman
12:15-12:25	Spacers in two stage revision: a case series Mohamed Abdelmoneim
12:25-12:40	Discussion

30th | March 2017

Session 4 Debate (The Best Practice For Different Techniques)

TIME

12:40-13:25

Chairmen:

Timour El Hussein
Ahmed Abdel Aal

12:40-12:55	Staged revision: why is it the gold standard? Hazem Abel Azeem
12:55-13:10	Single stage revision: why and for whom ? Ayman Ebied
13:10-13:25	Discussion

(Controversies)

TIME

13:25-14:25

13:25-13:35	Two stage only one component exchange arthroplasty Maher Halawa
13:35-13:45	Should all cement mantle be removed in revision for infection? Akram Hamad

13:45-13:55	Impaction graft in revision for infection Sameh Marei
13:55-14:05	Trabecular metal augments in revision for infection Ahmed Ebied
14:05-14:15	Controversies in management of infection with mega-prosthesis (oncologycases) Waleed Ebeid
14:15-14:25	Discussion
14:25-15:10	Lunch 

■ **(Debate: Cemented Vs Cementless Revision)**

TIME
15:10-16:00

Chairmen:

**Maher Halawa
Wael Samir**

15:10-15:25	Cemented hip is the best in revisions for infection Ahmed Abdel Aal
15:25-15:40	Cementless implants: scientists and surgeons meeting at the hip Mostafa Abdel Khalek
15:40-15:50	Discussion
15:50-16:00	Alliance in the fight against infection Hany Ahmed (Surgitech/Zimmer-Biomet)

30th | March 2017

Session 5 (Meet The Experts)

TIME

16:00-17:15

Expert panel:

Maher Halawa
Hazem Abdel Azeem
Timour El Hussein
Ahmed Hassan
Ayman Ebied

16:00-16:15	Difficult chronic infection Tarek Abdel Shafy
16:15-16:30	Is it possible to achieve zero % infection rate? (personal experience) Tarek El Taweel
16:30-16:45	Challenging case of Infected massive acetabular defect Foad Zamel
16:45-17:00	Challenging case of pelvic discontinuity in presence of infection Mahmoud Hafez
17:00-17:05	Summary of Expert panel Discussion Ayman Ebied
17:05-17:15	Maher Halawa addressing the EPHS members
17:15	Final Remarks and close
