## Welcome Message

International Master Course on Aging Skin

I find myself very pleased to be invited to this 14th Pan Arab League of Dermatology conference jointly organized with Sharm Derma in the idyllic city of Sharm El-Sheikh.

In the crowded niche of medical conferences, and as IMCAS Scientific Director, I feel doctors want to evaluate quickly what to invest their time in. This is why, we wish to provide participants this coming November, with a comprehensive session during which will be introduced and discussed Injectables and in order to optimize injections..

This 2-hour scientific session, organized in collaboration with IMCAS (world leader in medical conferences dealing with the interface between Plastic Surgery, Cosmetic Dermatology and Aesthetic Medicine), will outline how working on the anatomy can help us widen and strengthen one's doctor injection repertoire. Being able to compare using visuals the injections on patient and dissection on cadaver is a compelling way to feel what is really going on under the skin.

This knowledge transfer is what makes International Congresses like SharmDerma & IMCAS stands out: the main goal here is to share with your peers the latest advances in your specialty while expanding your horizons by teaching and learning from others.
