

**Egyptian Pelvis
and Hip Society**

A SYMPOSIUM ON INSTABILITY AFTER THR

**An in-depth discussion into
causes and solutions for
instability After THR**

Director of the Symposium
Ayman Ebied

President of the EPHS
Hazem Abdel Azeem

General secretary
Ahmed Hassan

17th - March 2016
Intercontinental Citystars, Cairo - Egypt

Welcome Message

Dear colleagues,

It gives me great pleasure to welcome you at one of our activities, the symposium on instability after THR. The Egyptian Pelvis and Hip Society has been created to promote the science and art of pelvis and hip surgery within and beyond the Egyptian orthopedic community. We work towards the mission of helping orthopedic surgeons in the development of their knowledge and expertise through various activities.

The EPHS is organizing an annual international conference in addition to many symposia for in-depth discussion of specific topics. Additionally, we are planning to launch many practical workshops and clinical meetings. We will endeavor to reach orthopedic surgeons at different levels of training and expertise. We therefore, welcome your ideas to improve our performance and would encourage collaboration to reach these goals.

I would like to thank Prof. Ayman Ebied for his effort in preparing this symposium. I value the time and effort he spent to bring this event to reality. I extend my thanks and high appreciation to our French and Egyptian faculty members for their contributions. My thanks and gratitude would also go to the sponsors of the day for their endless support. However, the success of this society can only happen by your attendance and interaction.

Wishing you a fruitful event

Prof. Hazem Abdel Azeem

A handwritten signature in blue ink that reads "Hazem Abdel Azeem".

President of the EPHS

Scientific committee

Ahmed Abd El Aal	(Assiut University)
Ahmed Ebied	(Menoufia University)
Ahmed Hazem	(Cairo University)
Ayman Ebied	(Menoufia University)
Ayman Soliman	(Alex University)
Bertrand Boyer	(St-Etienne, France)
Hatem Bakr	(Assiut University)
Ibrahim El Ganzory	(Ain Shams University)
Maher Halawa	(El Salam International Hospital)
Mahmoud Abd El Karim	(Cairo University)
Mahmoud Mabrouk	(Al Azhar University)
Mohamed El Kabbani	(Mansoura University)
Mostafa Romih	(Cholet, France)
Raof El Abbasy	(Military Academy)
Tarek Abdel Shafy	(Cairo University)
Tarek El Khadrawy	(Alex University)
Wael Samir	(Ain Shams University)

9:00-09:10	Welcome	Hazem Abdel Azeem Ayman Ebied
09:10-11:15	Session one Essential concepts for safe hip arthroplasty	Chairmen Ahmed Hassan Raof El Abbasy
09:10-09:25	Dislocation of a THR: the magnitude of the problem and risk factors	Ayman Soliman
09:25-09:40	Hip offset, how could it be restored?	Wael Samir
09:40-09:55	Head diameter (when size matters)	Mahmoud Abdel Karim
09:55-10:10	Acetabular cup position: anatomic landmarks and safe zones for cup insertion	Maher Halawa
10:10-10:25	Pre-operative evaluation and functional acetabular inclination	Sameh Marei
10:25-10:40	Diagnosis and classification of instability	Ibrahim El Ganzory
10:40-10:55	Postoperative protocol (what is the evidence and what should the patient know)	Mahmoud Mabrouk
10:55-11:15	Discussion	
11:15-12:00	Session two Would the surgical approach influence the rate of dislocation?	Chairmen Maher Halawa Hazem Abdel Azeem
11:15-12:00	Cross fire: the posterior approach increases the risk of instability	With: Ahmed Abd El Aal Against: Ayman Ebied
12:00-12:30	Coffee Break	
12:30-14:30	Session three Dual Mobility (the French touch/experience)	Chairmen Tarek El Khadrawy Ibrahim El Ganzory
12:30-12:45	Constrained liners are they all the same and when are they indicated?	Tarek El Khadrawy
12:45-13:00	Dual Mobility: the history and concept	Mostafa Romih
13:00-13:15	Long term results of DM THR in various age groups	Bertrand Boyer
13:15-13:30	Wear characteristics of polyethylene in DM cups	Bertrand Boyer

13:30-13:45	Arthroplasty for fracture neck of femur	Mostafa Romih
13:45-14:00	Dual Mobility for acute trochanteric fractures	Bertrand Boyer
14:00-14:15	Dual Mobility in difficult primary THR: early Egyptian experience	Ayman Ebied
14:15-14:30	Discussion	
14:30-15:15	Lunch	

15:15-16:00	Session four Meet the experts Moderator: Ayman Ebied	The panel: Ahmed Hassan Bertrand Boyer Hazem AbdelAzeem Maher Halawa Tarek Abdel Shafy
-------------	---	---

16:00-17:00	Session five Revision	Chairmen Ahmed Abd El Aal Tarek Abdel Shafy
-------------	---------------------------------	---

16:00-16:10	THR as a salvage for failed ORIF of intertrochanteric fractures	Ahmed Ebied
16:10-16:20	Revision for dislocation what is the outcome?	Mohamed ElKabbani
16:20-16:30	Dual Mobility cups in revision THR	Bertrand Boyer
16:30-16:40	Reconstruction of the abductor mechanism (G maximus transfer)	Ahmed Hazem
16:40-16:50	Trochanteric reattachment (wiring techniques)	Hatem Bakr
16:50-17:00	Discussion and wrap up of the meeting	

17:00-18:00	Workshop Saw bone workshop on SERF primary and revision Dual Mobility cups	El Shamy Company
