Welcome Message

Dear Friends and Colleagues,

On the behalf of all the members of the Plastic Surgery Division of the General Surgery Department at Kasr Alaini School of Medicine, it is my honour to welcome all of you to our 3rd Conference (Face III) which after 2 very successful conferences was suspended due to the turmoil following the great Egyptian Revolution in 2011, but with the current stability in the country, the board members decided to carry on with this year meeting which will be extended to include both aesthetic and reconstructive aspects of our specialty under the name «Kasr Alaini Plastic, Reconstructive & Aesthetic Surgery (KAPRAS).

This year for the first time in Egypt and under the supervision of eminent plastic surgeons from Cairo University in collaboration with the Military Medical Academy the main event of the conference will be hands on cadaver dissection covering common aesthetic and reconstructive procedures in the Head& Neck.

I hope that the organization, the scientific content and the live dissection course will be up to all your expectations. We all looking forward to see you at KAPRAS 2016.
