## Welcome Message

Meno-Sino 2016 Is Now Just A Pleasant Memory And We Want To Thank All Of You Who Participated In Making This One Of Our Most Successful Courses Ever. From Beginning To End, Meno-Sino 2016 Captured The Intellectual Openness And Conviviality That Marks Our Specialty And Plays Such An Important Role In The Evolution Of Stroke And Interventional Neurology.

One Aspect That Struck Me Throughout This Meeting Was The Seriousness And Constructive Attitude Of The Participants: You Could Feel The Attentiveness And Concentration, And The High Level Of Exchange That Took Place During The Sessions (And I Know That From Both Sides Of The Camera). The Way We Work Together, Along With Our Industry Partners Is, In Itself, An Inspiration.

Life Is Like A Train, And Next Station Will Be New Edition Meno-Sino 2017 Which Will Add More Exciting Interactivity By Including More Live Presentations, And Live Transmissions Where Experienced And Younger Participants Will Be Able To See Real Cases, Treated In Real-Time Under Real Conditions By Some Of The Most Experienced Colleagues In The World. . . . And Then Discuss The Challenges And Techniques Involved!

It's Traditional To Say When A Meeting Has Ended, That We're Already Planning Next Year's, But That's Not The Case With Meno-Sino 2017 – Meno-Sino Will Never End! Meno-Sino This Year Will Launch Online Platform To Be In Constant Development And Evolution: Where Every Day At Meno-Sino Online And Throughout The Year At Our Other Courses And Programs. Meno-Sino Online Will Be An Essential Element In This Ongoing Continuity, Bringing All The Ideas And Courses And Seminars Together In One, Interactive Community. Meno-Sino 2016 May Have Indeed Ended, But I'm Sure You Will Agree With Me That The Relationships We Forged During These Three Days, The Advances In The Way We Practice – The Take-Home Messages That We Learned By Being Together – Will Live On In The Improved Care We Offer Our Patients.

Thank You For Being Part Of Mena-Sino
