

1st Orthoplastic Limb Reconstruction Conference

The Egyptian Society of Plastic
and Reconstructive Surgeons (ESPRS)

In Collaboration With

The Association for the study & Application
of the Methods of Ilizarov (ASAMI)

15th -17th May 2017

Intercontinental Citystars Hotel, Cairo - Egypt

www.orthoplastic-egypt.com

Welcome Message

It gives me a great pleasure to welcome you to the first Orthoplastic limb reconstruction conference organized by the Egyptian society of plastic and reconstructive surgeons (ESPRS) in collaboration with The Association for the study & Application of the Methods of Ilizarov (ASAMI).

Road traffic accidents result in high incidence of complex injuries including open lower limb fractures. Many patients may receive suboptimal treatment if orthopedic and plastic surgeons do not work in a team at time of initial and definitive management. Resulting problems usually include difficulty or failure of bone coverage, fracture union problems, osteomyelitis, increased number of surgeries, prolonged hospital stay and resulting poor functional outcome.

This conference will highlight topics and areas of common interest between Orthopedic and Plastic surgeons as well as cases requiring joint input. This will represent a new approach to managing patients, improve teamwork efforts and eventually improve services provided to our patients.

Reconstructive microsurgery represents the gold standard for bone coverage in most open lower limb fractures. Obtaining good sustainable results depend on early proper teamwork intervention and that's why we thought about organizing this conference.

Orthoplastic approach has been established in the United Kingdom for many years with a great impact on services provided to patients and improving functional outcomes.

I would like to thank the ESPRS & ASAMI presidents and boards for supporting this conference.

Also I would like to thank our dear guest speakers, especially Mr Umraz Khan, who spent their precious time and effort to prepare for this conference and for sharing their experience in running orthoplastic services.

We are aiming to conclude this conference by taking steps towards setting national protocols and guidelines for managing open lower limb fractures.

I hope you will enjoy the scientific content delivered by our eminent guest and national speakers as well as the magnificent conference venue Intercontinental Citystars Hotel.

This conference will become a success only with your attendance and active input.

Prof. Fouad Gharib

A handwritten signature in blue ink that reads "Fouad Gharib". The signature is written in a cursive, flowing style.

President of the conference

■ **President of the Conference**

Prof. Fouad Gharib

■ **Conference Board Members**

Alphabetical Order

Ahmed Nassar	Mohamed Ellabban
Aly Elmofly	Mohamed Fadel
Ashraf Abouelfotouh	Raafat Anany
Atef Emam	Sherif Elkashty
Ayman Abo Elmakarem	Ahmed Hweidi
Hany Hefny	Tarek Amer
Hassan Kholousy	Tarek Elgammal
Magdy Abdelmuktader	Wael Ayad
Magdy Nabil	Yehia Zakareya
Mohamed Elfahhar	

Scientific Committee

Alphabetical Order

Ahmed Bahaa	Fayed Eldeeb	Mohamed Samaka
Ahmed Elsharkawy	Gamal Hosny	Mohamed Sobhy
Ahmed Gad	Hany Saad	Mostafa Mahmoud
Ahmed Kenawy	Hany Saad Abdelaziz	Moataz Fouad
Ahmed Khashaba	Hashem Ayad	Nader Elmeligy
Ahmed Sameya	Helmy Shalaby	Nasser Ghozlan
Ahmed Shams	Hesham Elashry	Osama Antar
Ahmed Zayda	Hesham Elmowafy	Osama Elshahat
Alaa Gheita	Hussein Saber	Raafat Gohar
Aly Moftah	Ikram Seif	Saad Elfayoumy
Amr Elsaied	Khaled Makin	Saad Elfayoumy
Amr Fouad	Maamoun Ismail	Salah Abdelghany
Amr Magdy	Mahmoud Abdelrahman	Samia Saeed
Abdou Darwish	Mahmoud Fayed	Sherif Amin
Atef Morsy	Mahmoud Mahran	Sherif Fetouh
Ayman Ebeid	Mohamed Elhadidy	Tarek Ataa
Dalia Elsakka	Mohamed Elmarakby	Tarek Elmenoufy

Amr Abdallah	Maged Elshafey
Ashraf Hussein	Mohamed Aboshaaban
Asser Sallam	Mohamed Elnahas
Ayman Hilaly	Mohamed Elsabbahy
Ayman Noaman	Mohamed Osama
Bassem Mossaad	Yasser Youssef
Emad Badawy	

Guest Speakers

Umraz Khan

Mr. Khan is a Consultant plastic Surgeon for 15 years and currently head of the Plastic Surgery department at North Bristol NHS trust. He is member of BAPRAS council as well as member of SAC in Plastic Surgery and educational chair. He is leader in limb reconstruction and chair of specialist interest group in Orthoplastic surgery.

Mr Khan graduated from University College London in 1991. He went on to undertake general surgical training in Bath and Higher surgical training in plastic surgery on the London rotation. He undertook a trauma fellowship at Liverpool, Sydney Australia before taking up a consultant job at Charing Cross Hospital in London in 2002. He was program director for training in London prior to taking up a post in Bristol in 2006. He has published many papers on limb reconstruction and remains actively involved in this area of surgical research.

He is now an A/O faculty in the UK and visiting professor to the Allama Iqbal Medical School in Lahore.

Michael Kelly

Mr. Michael Kelly is a consultant orthopaedic surgeon at North Bristol NHS trust for 8 years and head of trauma service.

He graduated in 1995 from King's College, University of London

Mr Michael Kelly undertook his Orthopaedic training in Edinburgh with a fellowship in Vancouver specialising in trauma.

His practice is trauma and hip and knee arthroplasty. He also contributes to the Orthoplastic with Mr. Umraz Khan.

Research interests are trauma and complex fractures including open fractures and bone biology.

He is one of the founders of Orthopaedic trauma society (OTS) of Britain.

Thomas Chapman

Mr. Thomas Chapman is a consultant plastic surgeon at North Bristol NHS trust for 5 years with interest in lower limb reconstruction as well as sarcoma.

he attended Bristol University and graduated in 1998. He had additional training in the form of competitive fellowships in Nottingham, Bristol, London and Trieste (Italy) to study a variety of reconstructive techniques. He has won awards from the Royal College of Surgeons and British Association of Plastic, Reconstructive and Aesthetic Surgeons, and is fellows of both.

Mr Thomas Chapman is a member of the governing body of Bristol University.

With Mr Umraz Khan , he runs the orthoplastic service for lower limb trauma.

Mark Jackson

Mr. Mark Jackson is a consultant orthopaedic surgeon for over 20 years working at University Hospitals of Bristol and currently head of the department. He is specialised in lower limb trauma and reconstruction. He trained in Orthopaedic Surgery in Nottingham, Edinburgh and Bristol before taking up his current post as Consultant Orthopaedic surgeon in 1996. His special interests include the management of lower limb peri-articular fractures, foot fractures and the treatment of fracture complications. He has extensive experience in the use of the Taylor Spatial frame and Ilizarov techniques, helping to pioneer the combination of these with internal fixation. He continues to be heavily involved in medical education, initiating a number of post-graduate courses over the last 15 years and is currently the chairman of the AO Advanced Surgeons course.

Fergal Monsell

Mr. Fergal Monsell has been a consultant paediatric orthopaedic surgeon at the Royal Hospital for Children in Bristol of 12 years and currently head of the department. He worked in the same capacity at The Hospital for Sick Children, Great Ormond Street and The Royal National Orthopaedic Hospital, Stanmore between 1997 and 2005. He completed his higher surgical training at the University of Manchester and fellowship training at the Royal Alexandra Hospital for Children, Sydney.

He has a broad based practice with special interest in limb reconstruction surgery using a spectrum of contemporary techniques. He has a considerable experience in the management of patients with the skeletal consequences of septicaemia and contributes to a multi-disciplinary team specifically managing this patient group. He is active in all aspects of paediatric trauma and is widely published.

He has an active clinical and basic science research portfolio and received a Doctorate of Philosophy in 2010.

He is a past president of British Limb Reconstruction society.

■ Main Topics

- History and development of extremity trauma care
- Classification systems
- Acute management; assessment and care including NPWT
- Compartment syndrome and the devascularised limb
- Poly trauma and SIRS
- Fracture patterns and how to anticipate the difficult case
- Soft tissue reconstruction
- Videos of flap dissection
- Special consideration in paediatric cases.
- Case for ring fixators and internal fixation
- Timelines in severe limb trauma
- Assessing bone viability; what to keep and what to throw away
- Strategies for acute bone loss
- Open peri-articular injuries..including foot injuries
- Amputation versus salvage decision making
- Amputation surgery
- Case discussions; Egyptian team and UK team
- Strategies when things go wrong
- Fracture non-union
- Infected non-union
- Osteomyelitis
- Limb length discrepancy
- Diabetic foot disease
- Meningococcal disease affecting the limbs
- Prosthetic joint infections
- Case presentation; Egyptian team and UK team

■ Registration Fees

ESPRS & ASAMI (Members)		ESPRS & ASAMI (Non Members)	
Conference Attendance	1250 L.E.	Conference Attendance	250 \$

■ Accommodation Fees

ESPRS & ASAMI (Members)		ESPRS & ASAMI (Non Members)	
Single Room	1400 L.E.	Single Room	120 \$
Double Room	1700 L.E.	Double Room	140 \$
(Per Night based on B.B.)		(Per Night based on B.B.)	

■ Junior Fees

Registration Fees 600 L.E.
Junior Offer valid Untill 1st May 2017
