

30th Annual Meeting of the Egyptian Society of **ANDROLOGY**

Future Aspires For Quality Governed
Reproductive and Sexual Healthcare

20th | 21st

January, 2022

Triumph Hotel, New Cairo, Egypt.

Organized by

MISR
2000
Medical conferences

IAPCC
ACCREDITED

Dear Colleagues

On behalf of the Egyptian Society of Andrology and Organizing Committee, we wish to extend to everyone with great concerns about men's health our cordial invitation to attend the 30th congress of Andrology, to be held on:

20th-22th January 2022, Cairo, Egypt

"The Future Aspires and Guidelines For Andrology Practice"

Endeavoring to explore the profundity and diversity of the contributing factors to men's fertility and sexuality. With an aim of binding the communication between the lab and the clinic, we deeply believe that the congress deserves the attention from not only basic scientists but also clinicians in the field of andrology. The Scientific Committee Designed a comprehensive scientific program concentrating on exciting areas of Andrology. We plane to discuss sperm biology, spermatogenesis, fertilization, male infertility, ARTS male sexual dysfunction, metabolic disorders, hypogonadism, sex hormones, prostate diseases and cancer. Also we will focus on environmental hazards, prevention of STDs and male contraception. However, we also aim to look in the future by touching subjects as stem cells, ICSI children, germ cell transplantation, epigenetics, sperm DNA and RNA damage. Discussing Egyptian Guidelines of Andrology practice will be the main topic. Therefore, we believe that the congress will be attractive not only for the clinicians but also for basic scientists creating a joint forum for development of andrology. The list of speakers will include well-recognized researchers. We hope that our scientific and social program will be fruitful and beneficial. Cairo at January will be unparalleled opportunity to combine science and leisure in an inspiring environment and weather.

*Do not miss our annual meeting of Andrology
Looking forward to see you in the magni cent Cairo in
January 2022*
