

31st

**Annual Meeting
of the Egyptian Society of
ANDROLOGY**

**Future Aspires For
Quality Governed Reproductive and
Sexual Healthcare**

**2nd – 3rd
February, 2023
Grand Nile Tower**

Organized by

Dear Colleagues

On behalf of the Egyptian Society of Andrology and Organizing Committee, we wish to extend to everyone with great concerns about men's health our cordial invitation to attend the 31st congress of Andrology, to be held on:

2nd -3rd February 2023, Cairo, Egypt

"The Future Aspires and Guidelines For Andrology Practice"

Endeavoring to explore the profundity and diversity of the contributing factors to men's fertility and sexuality. With an aim of binding the communication between the lab and the clinic, we deeply believe that the congress deserves the attention from not only basic scientists but also clinicians in the field of andrology. The Scientific Committee Designed a comprehensive scientific program concentrating on exciting areas of

Andrology. We plane to discuss sperm biology, spermatogenesis, fertilization, male infertility, ARTS male sexual dysfunction, metabolic disorders, hypogonadism, sex hormones, prostate diseases and cancer. Also we will focus on environmental hazards, prevention of STDs and male contraception. However, we also aim to look in the future by touching subjects as stem cells, ICSI children, germ cell transplantation, epigenetics, sperm DNA and RNA damage. Discussing Egyptian Guidelines of Andrology practice will be the main topic. Therefore, we believe that the congress will be attractive not only for the clinicians but also for basic scientists creating a joint forum for development of andrology. The list of speakers will include well-recognized researchers. We hope that our scientific and social program will be fruitful and beneficial. Cairo at January will be unparalleled opportunity to combine science and leisure in an inspiring environment and weather.

***Do not miss our annual meeting of Andrology
Looking forward to see you in the magnificent
Cairo in January 2023***

31st Annual Meeting of the Egyptian Society of ANDROLOGY

Main Topics For Abstract Submission

Guidelines of Andrology Practice
Basic Science
Spermatogenesis
Stem Cells
Embryogenesis

Sex Hormones
Genetics
Sperm Biology and Fertilization
Molecular Basis of Erection and Ejaculation

Clinical Issues

Male Sexual Dysfunction
Ejaculatory Disorders
Priapism
Female Sexual Dysfunction
Penile Diseases
Penile Reconstructive Surgery
Homosexuality
Male Infertility
Semen Analysis Assisted Reproduction

Hypogonadism
Late Onset Androgen Deficiency
Testicular Tumors
STDs
Pediatric Andrology
Contraception

Epidemiology

- Environment and Fertility
- Sexual Dysfunction

- STDs
- Congenital Anomalies

Deadline of Abstracts

15th of December, 2022

send to

ashrafhahmed@hotmail.com
norhan.nabil@misr2000online.net

Registration Package

Before 31st December, 2022

- Registration 3000 EGP

- Package: Accommodation & Registration
Single Room 8500 EGP
Double Room 9000 EGP

After 31st December, 2022

- Registration 3500 EGP

- Package: Accommodation & Registration
Single Room 9500 EGP
Double Room 10000 EGP
