Welcome Message

Dear Friends and Colleagues,

On behalf of the Conference board, it is my great pleasure to welcome you to the third edition of Diabetic Foot and Limb Salvage - New Trends in Research Diagnosis and Treatment.

The Conference has been designed to provide an innovative and comprehensive overview of the latest developments in diabetic foot care and limb salvage.

Many distinguished professors and scientists have joined the faculty and will take part in this Conference. Papers will be presented in the form of plenary sessions, symposia and short lectures and will include superb scientific material that will be carefully selected.

We hope that you will enjoy the Conference and that your interaction with your colleagues from different specialities and many different countries will stimulate a creative exchange of ideas and will be personally rewarding. We also hope and trust that you will enjoy your visit to Cairo, the Capital of our Beloved Egypt, in December 2015.

Yours sincerely

Prof. Dr. Ahmed Taha

Ahmed Taha

Chairman of the Conference

Welcome Message

Dear Friends and Colleagues,

It is with great pleasure and pride that I wish to welcome you in the third annual conference “Diabetic Foot and Limb Salvage: Challenges & Solutions”.

The conference aims to cover all aspects of diabetic foot problems, with special emphasis on difficult problems and up-to-date therapies.

Many world authorities in the field will participate, and contribute their special experiences.

The conference includes keynote lectures, presentation by experts, free communications, presentation of challenging cases and new techniques, workshops, live demonstrations, and interactive symposia.

In addition, great efforts were made to attract all industries in the field to give the participant a good exposure to all products available in our country.

We sincerely hope the meeting will add to your knowledge and positively impact your daily practice.

Yours sincerely

Prof. Dr. Rashad Bishara

Rashad Bishara

Co-Chairman of the Conference

Diabetic Foot & Limb Salvage

Main Topics

- Epidemiology of the diabetic foot as an international and national health care problem.
- Risk factors associated with ulceration and amputation in diabetics.
- The importance of the multidisciplinary approach to target the diabetic foot.
- Vascular and Endovascular interventions in limb salvage, difficulties peculiar to diabetics.
- Controversial issues in Endovascular limb salvage procedures.
- The role of various technologies and their impact on healing and preventing diabetic foot wounds
- Offloading techniques in the management and prevention of diabetic foot ulcer.
- The basics of appropriate antibiotic care of infected diabetic foot including bio-films and the diagnosis of infection in the diabetic foot.
- The importance of nutrition status in treating diabetic foot.
- The new diabetic foot infection guidelines.
- Diabetic ulcer vs. pressure ulcer.
- Diagnosis and treatment of diabetic foot osteomyelitis.
- Neuropathic foot and neuroischaemic foot.
- Diabetic foot reconstruction.
- Charcot foot, diagnosis, management (medical and surgical).
- Fungal infestation to deep tissue infection.
- The importance of patient education and adherence.
- Rehabilitation of the patient following minor or major amputation.
